Design Phase:

Proposed Solution – Freelancing Platform

Date	20 June 2025	
Team ID	LTVIP2025TMID56954	
Project Name	FreelanceFinder: Discovering Opportunities, Unlocking Potential	
Maximum Marks	2	

S.No.	o. Parameter Description			
1	Problem Statement	Many talented freelancers		
	(Problem to be solved)	struggle to find trustworthy		
		platforms where they can		
		showcase their skills, bid		
		for relevant projects, and		
		receive secure payments.		
		Simultaneously, small		
		businesses face challenges		
		locating credible, skilled		
		professionals in a		
		transparent and efficient		
		way.		
2	Idea / Solution Description	SB Works is a full-stack		
		MERN-based freelancing		
		platform designed to		
		connect clients and		
		freelancers securely. The		
		system allows clients to		
		post projects and receive		
		bids, while freelancers can		
		create profiles, submit		
		proposals, and deliver		
		work. The platform features		
		real-time chat, admin		
		oversight, user verification, and an intuitive user		
		interface for seamless collaboration.		
2	Novelty / Uniqueness	Unlike traditional		
3 Novelty / Uniqueness				
		freelancing platforms, SB Works offers built-in real-		
		works offers built-in real-		

		time communication,
		transparent bidding, and a
		streamlined submission-
		feedback loop. Admin
		involvement ensures
		dispute resolution and
		trustworthiness. Its
		modular structure supports
		scalable features such as
		personalized
		recommendations and
		portfolio integrations.
4	Social Impact / Customer	SB Works empowers youth
	Satisfaction	and recent graduates by
		providing them with a
		verified platform to build
		their freelance careers.
		Clients benefit from
		efficient and professional
		services, reducing
		turnaround time and
		improving project success
		rates. It bridges the digital
		employment gap for
•
